#### Purpose of Inspection:

Discovered this site while inspecting other permitted sites in the area.

#### Inspection Summary:

At the present time the Division does not have a permit on this site.

There is a small excavation and dump at the site. The total disturbance at the site including the road into the site totals less than a half an acre. Photos were taken of the disturbance.

A location monument was found near the excavation that contained name and address of the operator. A photo of the Notice of Location is included with this report.

A GPS point was taken at the site and a copy of the map generated by this point is attached.

#### Conclusions and Recommendations:

Because this site is presently unpermitted, a Cessation Order will be issued and the owner will be required to apply for a small mine permit (MR-SMO) for this site.
